Affected Class(es): SE

Specific Rule Information: [Note: All fields must be completed for consideration.]

Author's VERY BRIEF Summary of Proposed Action: I propose to add the use of a 7/8" shaft

Affected Rule: Rule 55 Sportsman Entry page 61 of 2021 rule book

55.1.1.1 A minimum of 1-inch prop shaft is mandatory

Proposed rule:

55.1.1.1 A minimum of 7/8-inch prop shaft is required

Reason for change:

Reason #1 To enable old SS/SK class boats to run as an SE with little cost for struts, logs, shafting and props and then they could also step up to run SA with little effort. With a high weight limit and lower speed limit there would be little if any speed advantage. This rule would still allow for a 1" shaft but also allow the use of 7/8" shafts.
