

APBA

NEW CLASS COMMITTEE

January 21, 2015

Meeting was called to order by Howie Nichols. A brief discussion was held on the new classic A class under discussion by Stock. Meeting was recessed until Friday.

Meeting was reconvened by chairman, Howie Nichols. Members present were: Mark Wheeler, Dutch Squires, Dave Augustine, Ernie Dawe, Fred Hauenstein, Howie Nichols, Jan Shaw, Jean McKay-Schwartz, Robin Shane, Bill Thompson, Kristi Ellison, Rick Sandstrom.

Old Business

Pro category has a request to delete 175 CCR and replace it with 700 CCR. They will be changing the rules on 700 CCR to slow it down. It is not a capsule class and will be following the same rules as the Title Series. This will be for implementation 30 days after publication by APBA. Motion by Fred Hauenstein to recommend Board of Directors approval, seconded by Dave Augustine. Motion passed unanimously.

SLT is working to put together a class that conforms to all UIM rules, the Thundercat P750 class. There is no proposal for a new class at this time. SLT was advised that a new class could be added at any time with Board approval or the new class could run under Special Events for this year. Motion by Fred Hauenstein to tentatively recommend approval of this based on receiving the rules from the SLT committee, seconded by Dave Augustine. Motion passed unanimously.

New Business

Stock did have a class called OMC A Classic Hydro and Runabout under consideration. Stock category took no action on this so this is dead for this year.

Motion by Fred Hauenstein, seconded by Kristi Ellison to adjourn. Meeting was adjourned.
